*From The

We strongly believe that every student is a unique person with his/ her own set of abilities, needs and aspiration. We at Adinath Public School are committed to bring out that uniqueness.

Besides academic excellence, the school is committed to inculcate in all the students strong ethical values of integrity, politeness, kindness and respect for elders. I firmly believe that education should foster confidence, discipline, clarity in thought and decision making ability to set and achieve goals, and above all social responsibility, as a life long process.

The school pedagogy backed up with meticulously laid state of art infrastructure brings excellence in learning. Students of Adinath Public School are groomed to think out of the box and engulf articulation, innovation and team work.

The challenge lies in utilizing the changing learning patterns with changes in the method of instruction coupled with technological advancements, to create an education, experience that will influence the all round development of students and uphold our commitment towards nation building.

*From The
Principal's Desk*

It is not in the stars to hold our destiny but in ourselves.
– William Shakespeare

Today, the role of school is not only to pursue academic excellence but also to motivate and empower the students to be lifelong learners, critical thinkers, and productive members of an ever-changing global society. At Adinath Public School, we provide an atmosphere to our students for multifaceted development, where children are encouraged to channelize their potential in the pursuit of excellence. This can only be possible in a holistic, student-centric environment.

Learning is a lifelong process. Our school is oriented to the total formation of a child and to adaptation of various methods suiting the dynamics of the changing world in order to achieve common goals and objectives.

Dear students, it is my message to you all that the people of fine character live by their values. They are honest and are committed to truthfulness, word and deed. True character thus encompasses the capacity for self-discipline.

Character creates self-respect, which in turn leads to high self-esteem. Maturity is reflected in all aspects of character—the decision we make, the friends we choose and the responsibilities we accept. Always remember to uphold the dignity of people. Be always ready to give preference to others. What you are is God's gift to you. What you become is your gift to God. Have something to live for. Bring out the best in you.

“With warm wishes and Almighty's blessings”.

Vice Principal's Desk*

As I walk down the hallways of the school everyday I can hear the chatter of eager minds, the shouts of excitement from victorious athletes.

Adinath Public School believes in the age old adage of “All work and no play makes Jack a dull boy.” Our philosophy lies in ensuring that a right blend of work and play trains the body, the mind and the soul.

At Adinath Public School, we recognize that to be successful in an ever-evolving world, students need to be smart and learn all the time to take on the challenges that confronts them and believes that students need to access quality resources, critically analyze themselves and think flexibly. An amiable environment further ensures that the students are groomed to forward thinking and fully equipped to take on the challenges of a fast paced world and I am confident enough that Adinathians will make themselves stronger day by day, adding a new leaf.

Alwar must have such education facilities that can counter child labour

When I dream of ALWAR in the future, a picturesque image of bright sun rising from the Sitserh Lake blessing the residents of ALWAR and the city of ALWAR eternally comes to my mind. I visualize the happy and smiling face of each and every resident of ALWAR with nothing but joy and peace in their hearts. ALWAR would be self-sufficient and prospered economically, socially and environmentally. The industrial area of the city will become a zone of economic hub providing jobs to many people also; the industries have started to use environment friendly technology. ALWAR will have good quality of medical, finance and arts, engineering colleges so that the students enjoy every opportunity no child's tiny hands working in factories. Every resident, be it an old-aged person or a woman, feels free to roam around the city even during night time such would be the atmosphere of ALWAR's streets full of lamps posts, light & police security. The health of residents will be well with clean & accessible hospitals and proper vaccinations. Proper nutrients & food to all residents via anganwadis will be provided to the ladies & children.

I wish to see Alwar as a growing metro city with safety for everyone

After few years from today, BHUWADI Industrial area which comes under ALWAR district will get separated and will become a new district. MIA (Matsya Industrial Area) is developing agglomeration of industries which is responsible for economic growth of the work of renovating Bala kila is also on the way. Alwar is at top category Education institute in the district. This well-know establishment acts as a one-stop destination servicing students custom both local & from other parts of the district. The future Alwar district will be connected with the country especially Delhi-Mumbai, with arrival of Delhi-Mumbai industrial corridor. It will accelerate of not only transport sector but also industrial sector of the district with industrial zone of different countries like Japan & South Korea. Alwar district's name seems in limelight in everyday news. Upcoming district is the parameter of flourishment of any area & Alwar seems on path of it. In the coming 5-10 years, Alwar will develop more in 10-15 years, I will see Alwar as a growing metropolitan city.
